Length Tolerance	From 0 to +2mm

Solid wood
from planed teak
on its four sides, with four
defined edges. Suitable for
outdoor use and floor laying.
Natural long lasting material with
excellent performance for furniture
manufacturing.

La marca del
manejo forestal
responsable

Recommendations:

*Separate the material from the floor (8cm).

*Store horizontally at room temperature.

*For outdoor use, it is recommended to use specialized protective products like Lasur made with water-based acrylic resins that leave an open-pored finish, providing adequate protection for the pieces.

* The products applied should have insecticide and fungicide protection.

Physical Characteristics of the Product

Knots	Admits (healthy)
Pith	Admits (present in one of the four sides)
